

***Maritime
Tactical Kits***

Our maritime tactical kits have been designed in non-combatant colors for high threat sea zones.

All our EnGarde products are tested rigorously to the highest standards in order to ensure the highest quality and offer the greatest protection to our customers.

Recent Maritime Clients Include:

Seaway Marine Trading BV (Netherlands),
Wave. Co Supply N.V. (Belgium)
and **EuroSupply Bergen AS** (Norway).

BASIC TACTICAL KIT

The basic tactical kit consists of a lightweight helmet and a lightweight tactical overt vest. Both the vest and the helmet are designed to stop 9mm, .357 Magnum and .44 Magnum rounds and can also stop penetration of shrapnel travelling at a velocity of up to 650 m/s.

Vest Features

- NIJ standard Level IIIA soft armor panels
- Front, back and side protection
- Flexible and lightweight soft armor panels made with 100% Dyneema®
- Vest has positive buoyancy—it floats
- Vest upgradable with NIJ Level III or Level IV hard armor plates
- Vest comes with a sturdy carrying bag

Helmet Features

- NIJ standard Level IIIA shell
- Soft inner padding for maximum comfort

from EUR 650/kit

ADVANCED TACTICAL KIT

The advanced tactical kit consists of a lightweight helmet, a lightweight tactical overt vest, two Level IV hard armor inserts and an extra tactical covert cover which allows you to adapt the vest to meet your requirements and your situation.

With the use of both soft and hard armor panels, the vest stops anything from 9mm AK47 rounds to .30 caliber M2 armor piercing rounds.

Vest Features

- NIJ standard Level IIIA soft armor panels
- Front, back and side protection
- Flexible and lightweight soft armor panels made with 100% Dyneema®
- Two Level IV hard armor plates
- Additional tactical covert cover
- Vest comes with a sturdy carrying bag

Helmet Features

- NIJ standard Level IIIA shell
- Soft inner padding for maximum comfort

from EUR 895/kit

ULTIMATE TACTICAL KIT

The ultimate tactical kit consists of a lightweight helmet, a full cover tactical overt vest, two NIJ standard Level III or IV hard armor inserts and two extra tactical covers which allows you to adapt the vest to meet your requirements and your situation. With the use of both soft and Level III hard armor panels, the vest stops anything from 9mm AK47 rounds to .30 caliber M2 armor piercing rounds at a distance of as close as 15 meters.

Vest Features

- NIJ standard Level IIIA soft armor panels
- Front, back and side protection
- Groin and shoulder protection
- Lightweight soft armor panels made with 100% Dyneema®
- Two light Level III hard armor panels made with 100% Dyneema®
- Vest with soft and hard armor Dyneema® panels has positive buoyancy
- Two additional tactical covert covers
- Vest comes with a sturdy carrying bag

Helmet Features

- NIJ standard Level IIIA shell
- Soft inner padding for maximum comfort

from EUR 1165/kit
